Turmberg soil profile

WEINGUT ROBERT WEIL

Founded in 1875, Weingut Robert Weil is considered to be one of the Rheingau's younger wine estates. It is located in the heart of Kiedrich, a village first documented in the year 950. Kiedrich Turmberg, one of the estate's top vineyards, is among the finest sites in the Rheingau.

The estate cultivates 70 hectares (173 acres) of vineyards, of which 98 percent are planted with Riesling. Today, Wilhelm Weil, the great-grandson of the estate's founder, carries on the uncompromising, quality-oriented vineyard and cellar practices that have been the hallmark of the winery for four generations.

2010 WEINGUT ROBERT WEIL KIEDRICH TURMBERG RIESLING TROCKEN

Kiedrich Turmberg ("tower hill"), a separate hill adjacent to the Gräfenberg vineyard, is rated as premier cru. The German wine law of 1971 incorporated Turmberg into the Gräfenberg, but in 2005 it was reinstated as an individual, classified site. The steep, southwest-facing site has a slate base with a thin topsoil layer composed of stony, gritty phyllite mixed with loess and loam. It produces very fine, elegant wines that are less massive than their counterparts from the Gräfenberg. Turmberg is wholly owned by Weingut Robert Weil.

2010 TASTING NOTES

The 2010 growing season in the Rheingau got off to a late start after a long, snowy winter. Cool summer temperatures and a wet September caused worries that the grapes might not ripen fully. But beautiful, sunny weather in October brought full ripeness, long hang time and extraordinary concentration to the wines.

The 2010 Turmberg Trocken (dry) is bright and pure, with a lovely herbal tone that is characteristic of this site. It has a finely focused mineral structure and a juicy grip on the palate.
